

Utility Bill Update August 2020

The development of a storm water fee resulted from needed improvements to the storm water facilities and infrastructure in the Borough of Camp Hill. The Pennsylvania Department of Environmental Protection requires certain operating efforts to be completed annually, and sediment pollution is reduced by 2023. If the Borough ignores the mandate, it may be required to perform the same work but also face a large fine.

The Utility User Fee is broken down so residents can see how much they are being charged for each service. The storm water user fee is broken down into 4 tiers. These tiers are based upon the amount of impervious area on the parcel. An outline of the tiers is located in the message area of the bill.

Property owners can apply for credits. The Borough's Credit Policy and application can be found on the Borough's website.

If residents have any questions regarding their bill, please contact Rachel Burger (717)737-3456x1022 in the Borough office. If residents have specific questions about credits and the process for obtaining them, please contact Patrick Dennis via email pdennis@camphillborough.com or by telephone (717)737-3456x1042.
